Charles W. Anibal, wife and daughter. Josephine, aged 11 years, of Craig, were in St. Joseph. Monday, last, in consultation with Dr. Panlei Morton, in regard to an injury received by Miss Josephine, while coasting at school, the Friday before last Christmas. She was riding on a sled with a number of other children, when they were ran into by another sled with several children upon it, the result being that her neck and shoulders were injured, and since which time her neck has been stiff and bothered her a great deal. An examination by X-ray was made, but the dector would not express an optimion as to the gravity or seriousness of the derangement until he made a thorough study of the picture. Miss Josephine is an extremely bright and popular young girl, and we sincerely inpopular young girl, and we sincerely hope that the trouble can be corrected without much pain, if any, and this hope will also be indulged in by the many friends of Mr. and Mrs. Anibal, and by the many schoolmates and friends of Miss Josephine.

Badly Burned.

Badly Burned.

Last night, about 8 o'clock, Mrs. Gorge Olin, who lives in north edge of town was very badly burned in lighting a fire in the cook stove. She was alone at the time of the accident. About three-difths of the skin on her entire body was burned off. All of her clothes which she wore were burned. Dr. Perry is attending her and a trained nurse from St. Joseph came this morning to care fer her. She is in a very bad state and slight hopes for her recovery are entertained.—News-Jeffersonian, May 20.

Hundreds of Acres Under Water.

Hundreds of Acres Under Water.

The hard continued rains of the last few days, so we are reliable informed, have put the Big Ditch. Kimsey and Cannon creeks out of their banks, and as a result hundreds of acres of corn, wheat, alfalfa and hay lands are under water, south of Bigelow and extending down below Napier. The creek that runs through Forest City was also out of its banks, caused by clogging at the railroad and wagon bridges, the water running through the ice plant, park, and was over the platform at the depot.
